Professional Summary

Backend Developer with 6+ years of experience in designing, developing, and maintaining scalable web applications and backend systems. Strong expertise in PHP, Laravel, Zend Framework, CodeIgniter, RESTful APIs, MySQL, PostgreSQL, and Redis. Experienced in developing Healthcare, eCommerce, Education, HR Management, Loyalty & Rewards, Booking, and Enterprise Web Applications. Skilled in API development, database design, performance optimization, third-party integrations, caching strategies, and Agile software development. Proven ability to deliver secure, reliable, and high-performance applications in fast-paced environments.

Technical Skills

Backend Technologies

- PHP
- Laravel
- Zend Framework
- CodeIgniter
- RESTful APIs
- MVC Architecture
- Object-Oriented Programming (OOP)
- Design Patterns
- API Integration
- Authentication & Authorization

Databases & Caching

- MySQL
- PostgreSQL
- Redis

Additional Technologies

- Python
- FastAPI
- Java
- Spring Boot

Frontend Technologies

- HTML5
- CSS3
- Bootstrap
- JavaScript
- AJAX
- jQuery
- AngularJS
- React.js
- Responsive Web Design

Tools & Platforms

- Git
- Bitbucket
- SVN
- Jira
- AWS
- Postman
- CI/CD Pipelines
- GitHub Copilot
- Cursor AI

Professional Experience

Software Engineer, Social Beast

06/2025 – Present

- Develop and maintain scalable Laravel-based web applications and backend services.
- Designed and implemented a Turf Booking Platform with real-time slot availability and reservation management.
- Integrated payment gateway solutions and automated booking notifications.
- Developed administrative dashboards for booking operations, pricing management, reporting, and analytics.
- Optimized application performance through database indexing, query tuning, and caching techniques.
- Collaborate with cross-functional teams to deliver secure, scalable, and user-friendly solutions.
- Technologies: Laravel, PHP, MySQL, REST APIs, JavaScript, Git

Software Engineer, ImmplyCloud India

03/2022 – 06/2025

- Developed enterprise-grade backend applications using PHP, Laravel, and Zend Framework.
- Designed and implemented RESTful APIs for internal systems and third-party integrations.
- Built modules for loyalty programs, rewards management, campaign tracking, and customer engagement platforms.
- Improved database performance through query optimization, indexing, and Redis caching.
- Integrated backend services with AngularJS-based frontend applications.
- Participated in Agile development, code reviews, testing, deployment, and production support activities.
- Technologies: PHP, Laravel, Zend Framework, MySQL, PostgreSQL, Redis, REST APIs, AngularJS

Software Developer, Georeach Technologies

01/2020 – 02/2022

- Developed and maintained Healthcare, eCommerce, Education, HR Portal, and Corporate Websites.
- Built responsive web applications using HTML5, CSS3, Bootstrap, JavaScript, AJAX, jQuery, and AngularJS.
- Integrated frontend applications with REST APIs, payment gateways, and third-party services.
- Improved website performance, SEO, and overall user experience.
- Worked closely with backend developers to deliver scalable business applications.
- Technologies: PHP, HTML5, CSS3, Bootstrap, JavaScript, AJAX, jQuery, AngularJS, MySQL

Key Projects

Turf Booking Platform, Technology: Laravel, PHP, MySQL, REST APIs

- Developed a complete online booking platform with real-time slot availability and reservation management.
- Implemented booking workflows, slot scheduling, cancellations, and automated notifications.
- Integrated secure payment gateway solutions.
- Built admin dashboards for pricing management, scheduling, reporting, and operational control.

TopScoreTest – Online Assessment Platform, Technology: PHP, MySQL, JavaScript

- Developed online assessment and recruitment management modules.
- Implemented candidate dashboards, authentication, test scheduling, and role-based access control.
- Built administrative features for candidate tracking, assessment management, and result processing.
- Supported secure online examination workflows and reporting.

Loyalty & Rewards Platform, Technology: Zend Framework, MySQL, Redis

- Developed campaign management and rewards modules for enterprise clients.
- Designed APIs for reward tracking, point redemption, and campaign administration.
- Implemented Redis caching and database optimization techniques.
- Improved application scalability and performance.

Healthcare Management Portal, Technology: PHP, Laravel, MySQL

- Developed patient management and appointment scheduling modules.
- Integrated third-party APIs and reporting features.
- Optimized database queries and backend performance.
- Enhanced application usability and operational efficiency.

HR & Recruitment Portal, Technology: PHP, Laravel, MySQL

- Developed recruitment workflows, candidate management modules, and administrative dashboards.
- Implemented role-based access control and reporting features.
- Integrated REST APIs for seamless data exchange.
- Improved recruitment process automation and reporting.

DOMAIN EXPERTISE

Domain Expertise

- Healthcare Applications
- eCommerce Platforms
- Education & Assessment Systems
- HR & Recruitment Portals
- Loyalty & Rewards Platforms
- Booking & Reservation Systems
- Corporate & Promotional Websites

CORE STRENGTHS

- Backend Development
- Laravel Application Development
- REST API Development
- Database Design & Optimization
- Third-Party API Integration
- Payment Gateway Integration
- Performance Optimization
- Agile Methodology
- Problem Solving
- Team Collaboration

Education

MBA – Information Technology , Pune University	2017 – 2019
CGPA: 8.1 / 10	
Bachelor of Computer Applications (BCA) , Pune University	2013 – 2016
Percentage: 63%
